

QuadS Blind Motor Ordering Guide

Instructions:

1. Print this document at ACTUAL SIZE (100% scale - NO SCALING)
2. Verify print accuracy using the 50mm calibration box below
3. Cut along the measurement strip
4. Wrap the strip around the OUTSIDE of the blind tube (NOT over the fabric)
5. If the left edge overlaps within the green zone (126-133mm), your tube is compatible.
 - Note: Criss-cross or White areas are INCOMPATIBLE tubes

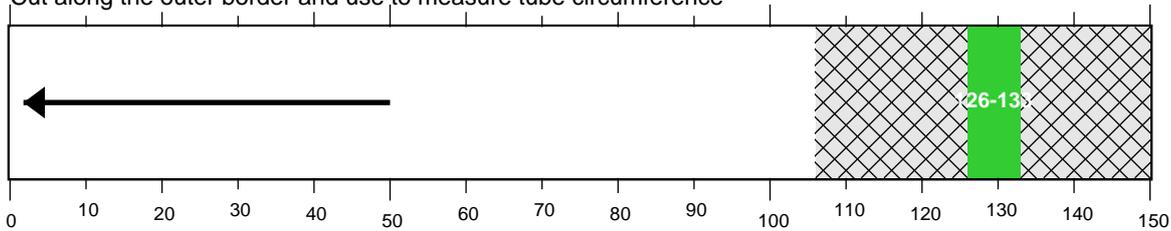

CALIBRATION - Verify Print Accuracy:

Measure this box with a ruler. It should be exactly 50mm wide.

Measurement Strip (150mm total length):

Cut along the outer border and use to measure tube circumference

Zone Guide:

- ⊠ Incorrect Tube Size (size < 126mm or size > 133mm)
- Correct Tube Size (126 <= size <= 133mm)
